OUR PROJECTS

The *Men and Boys as Partners in Promoting Gender Equality and prevention of Youth Extremism and Violence in the Balkans* or Young Men Initiative II (YMI II) is our new project for 2018. The project builds upon CARE’s comprehensive and programmatic effort to fight interpersonal and gender based violence (GBV) as well as to improve gender equality in the region and address preventative issues related to youth extremism and violence. The project objective is to enable positive and peaceful societies for young people in Serbia, Kosovo, Albania and Bosnia and Herzegovina, that support gender equality and decrease interpersonal violence and its extremism. The project’s specific objective is to improve Youth NGOs and government capacities to integrate Program Youth - Life Skills Educational Curriculum in current educational and youth policy strategies and strengthen governmental and civil society efforts related to inclusion of youth vulnerable to extremism. This year we implemented Program Y in Ismail Qemali highschool. We trained young people from this school with Y Manual and identified individuals who will act as peer educators.
OUR CAMPAIGN

"Be a man" lifestyles campaign, which aims to reinforce key messages of the Young Men Initiative and encourage changes at the school level and beyond. The campaign is supported by variety of educational materials, social media and "activities" organized and conducted by the students, members of "Be a man" clubs (abbreviated BMC). Members of "Be a man" clubs are both young men and women, and in the region they gather several hundred active members. In the Balkans, there are currently 40 active "Be a man" clubs with 1,500 active members. Leading philosophy of the Young Men Initiative is that young men should not be seen as an obstacle to peace and gender equality, but as key allies in the promotion of non-violent, healthy relationships and communities. Young women, as active members of the community, should be active participants in society, as well as agents of change.
